# Boston College Centennial

## ... 100 Proud Years!

*First National Stores* salutes Boston College on a century of exciting accomplishment . . . of academic achievement and civic contribution. There is little need to chronicle the Centennial story. It has already been done, notably by the President of the United States . . . and we offer our heartiest congratulations.

*Boston College's* splendid body of alumni are prominently represented in business, industry and the professions throughout the country, but especially in our own area. First National Stores is the beneficiary of much "B. C." alumni talent in its own operations, a matter of genuine pride to the Company.

As "B. C." moves into its second century, *First National* has every confidence in the continued and increasing eminence of Boston College whatever the challenge in the years ahead.

Prof. Harold H. Fagan

## HAROLD H. FAGAN, '19

Upstairs on the third floor of Devlin Hall, Mr. Harold H. Fagan, Assoc. professor of chemistry continues to teach chemistry as he has for the past forty-four years. His past students including the present chairman of his department, Dr. Robert O'Malley, Dr. MacCarthy, Fr. Addleman, chairman of the philosophy department, and those of whom he is most proud, his own two sons.

Certainly the changes Harold Fagan, Class of '19, has seen over the years have been the most significant in the growth of his Alma Mater. "Like anything else, its been a revolution you might say. Years ago we knew the students more intimately and knew more about them. The system was so different, so that the comparison wouldn't be fair. We had no Gold Key's, no honor societies, no

Devlin Hall, and practically no automobiles."

When Mr. Fagan first came here he gave his chemistry lectures in what is now the Commander Shea Lounge and soon to be the University Registrar's office in Gasson Hall. "For a number of years all the students had to take two years of Latin, Greek and English, one year of a language, four years of philosophy and theology, one semester of geology and astronomy and one year of physics and chemistry. On the other hand there were no electives as such. Extra courses, such as I took in chemistry, were given after regular hours when generally there was somebody around to help you with it."

"In my own department it has gone all the way from the time of no electives to that of a major subject leading up to a doctoral degree. This department is approved by the American Chemical Society which is the highest rating you can get." Originally when

Mr. Fagan started there were only two instructors in the department.

Why has Mr. Fagan worked so hard and so long? "I like to do it. The subject matter is interesting and I like to watch how the students progress." Mr. Fagan's students have certainly progressed into such varied fields as medicine, chemistry, a federal prison warden, and teaching.

Mr. Fagan can remember Boston College's seventy-fifth anniversary. "Of course, even though there were representatives from all the New England colleges present, it was nothing to compare with the celebration of the past few weeks."

Mr. Fagan was honored with LL.B. from the Boston College Law School in 1933. "The thing I am most proud of is the fact that all my children have graduated from Boston College."

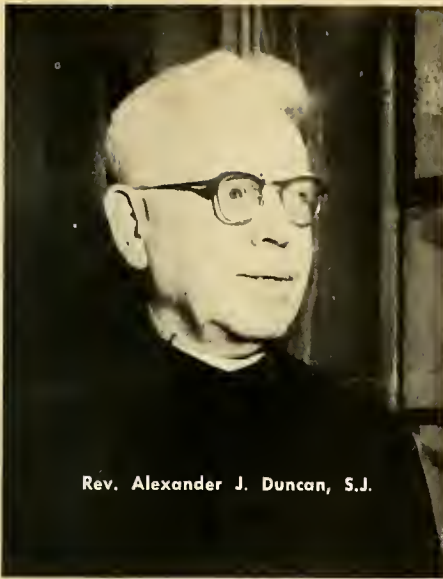

## REV. ALEXANDER J. DUNCAN, S. J.

"The Centennial Academic Colloquy was one of the finest events which have occurred in the twenty-five years that I have been here at Boston College," said Rev. Alexander G. Duncan, S.J., Ph.D., professor of philosophy at Boston College.

It is understandable that Fr. Duncan should be so enthusiastic about these conferences, since he has been closely associated not only with Boston College, but also Weston College and Holy Cross for thirty-six years since his student days at Weston College in 1927.

From his attendance at the conferences Fr. Duncan drew several significant conclusions. "I think it will bring about better understanding between Catholics and Protestants without sacrifice of principles on the part of either group. I certainly hope that the proceedings will be published, because they were intellectually stimulating as

Rev. Alexander J. Duncan, S.J.

proved by the comments in the corridors afterward." Fr. Duncan pointed out two leading men of the colloquies were Dr. Robert McAfee Brown of Stanford University and Fr. William Donaghy, S.J., of Boston College. "Dr. Brown had great convictions of his own and would respect your convictions as well. Fr. Donaghy was outstanding with his versatility and brilliance."

Looking back over the years Fr. Duncan pointed out the more obvious contrasts between the B.C. of twenty-five years ago and the B.C. of today. In the early days there were no cars or social life that would compare with the present day. "The caliber of the students is about the same as when we started here. The interests have varied a little bit, but it is all in the accidents that the changes have taken place," said Fr. Duncan.

"The B.C. student over the years has been trained the same way and believes in the same things. Criticism has been adverse at times, but I think that it has been mainly on the surface, but their attitude is the proper one. I think we have a very high type of fellow around here."

Fr. Duncan's devotion to his work is best exemplified when he refers to it as "a living subject. The field is so broad that there are always articles in books by modern authors that supplement the philosophical truths with which we deal. As I have told my classes over the years: 'You will know more philosophy five or ten years from now than you do the day of final exams, because you will see how the philosophical truths apply to the daily living'."

Fr. Duncan has taught natural theology, history of philosophy and even

geography to the army during the war. Besides teaching at the graduate school level, he served as head of the philosophy department at Boston College from 1947 to 1953.

"Teaching is my life, and I look forward to the class of '67 with as much enthusiasm as I did with my first class of students."

#### GEORGE P. DONALDSON, '29

"I had a man come in here and hire two men on the basis of a conversation on a plane trip with a B.C. graduate. He was very discouraged with the evident lack of good men available for his company. The B.C. man told him of Boston College and that he would be sure to find many good men there. This, I think, is very indicative of the alumni helping each other in a series of chain reactions."

The man who was speaking was George P. Donaldson, Director of Placement at Boston College since September 1941. It has been said of Mr. Donaldson that he probably knows more alumni than any one other person at Boston College. And that is the key that has unlocked the door for many a hopeful B.C. graduate.

Mr. Donaldson explained that it was possible to say he knew a great many people from Boston College, since he entered here in 1925, graduated from A&S in 1929, worked as a librarian from 1932 to 1935, and then assumed directorship of the Placement Office in 1941. Referring to his "key" role Mr. Donaldson said, "In this business, the extent to which many alumni have been helpful is that I might recall the name

of a graduate who might be able to help a student interested in his particular field, and this alumnus has always been willing to cooperate and assist the Placement Bureau. I act as a sort of a liaison in this matter and we are very pleased with the tremendous cooperation which we receive from all the alumni."

Looking back over the years Mr. Donaldson settled back in his chair, closed his eyes, and grimly remembered the days when interviews were held in the corners of Gasson Hall, or when no more than four people at a time could sit down at the Colombiere House on College Road, while they waited. "The facilities which we have now are tremendous. Personnel representatives who come on campus now have much better service awaiting them and the prospective employee. They are impressed not only by the building, McElroy Commons, but also by the student-faculty cafeteria service as well. It is a far cry from the stand-up lunch tables in the dim cellar of Gasson Hall.

"The B.C. man is a very fine fellow as I've seen him over the years. The spirit of the students has never changed. They have earned the reputation they have today and this reputation rests upon the shoulders of the men graduating today," said Mr. Donaldson.

Referring to his work, Mr. Donaldson said, "This job may drive you crazy at times, but it will never bore you. In a job of this kind you are dealing with many people, with their hopes and problems, and the challenge is tremendous. If ever there was a job to keep you humble, this is it, because you feel you never know enough."

*"The whole world has come to our doorstep and the universities must be its student . . ."*

\* \* \*

*"There is indeed an explosion of knowledge and its outward limits are not yet in sight . . ."*

\* \* \*

*"Wherever we turn, in defense, on space, in medicine, in industry, in agriculture, and most of all in basic science, itself, the requirement is for better work, deeper understanding, higher education . . ."*

\* \* \*

*"All men today must learn to know through one another—to judge across their own ignorance—to comprehend at second hand. These arts are not easily learned. Those who would practice them must develop intensity of perception, variety of mental activity, and the habit of open concern for truth in all its forms . . ."*

\* \* \*

These thoughts would seem to have been expressed at the gathering of scholars at the Boston College academic colloquies, where probing inquiry into the realms of knowledge was deep and diverse.

These thoughts, too, engender feelings about the development of the faculties and facilities not only of Boston College, but of all leading universities.

The quotable quotes were, however, by President John F. Kennedy at the Academic Convocation last month. They underline the increasing urgency in our society for more adequate programs in higher education . . . programs being introduced, nurtured, and planned at Boston College.

Very Rev. Michael P. Walsh, S.J., has on many occasions in the past three years enunciated the missions of Boston College and "its date with its higher destiny."

The seeds of development at Boston College have been sown. Now in this Springtime, they are growing in the sunshine and showers of financial help, devoted voluntary labor, and the inspiration of our eternal byword "Ever to Excel."

In the academic colloquies, the knowledge explosion was recognized, weighed and evaluated, some of the conclusions offered gave clear indications of why a university must develop and grow.

In another sense, the knowledge explosion is etched throughout the Boston College Development Program:

A library addition — to meet the needs of this explosion as it is expressed

## THE KNOWLEDGE EXPLOSION and DEVELOPMENT

in the writings of scholars in all fields.  
 A science center—where the frontiers of knowledge are right there in the laboratories that must be added.

An institute of human relations — through which the ailments of society —delinquency, crime, family separations—will be diagnosed and treated through the unique multi-discipline approach by Boston College scholars.

These are but a few of the testimonials of what the knowledge explosion means on this campus.

Yet, it must also be translated into the terms of the core of the university, its teachers and its students. The endowment funds for faculty and scholarships in the Development Program are vital ingredients in the achievements of what are not only our own goals, but goals that in the larger sense are inextricably entwined in the fabric of the *nation's needs* for progress.

Scholars from all fields, and their students, will be exploring on all fronts —via the routes of theological and sociological significance, industrial inventiveness, scientific breakthroughs—the ways to meet our needs.

"The knowledge explosion," as President Kennedy said, implies "the heavy present responsibility of institutions like this one."

The responsibility is gladly shared by Boston College alumni with the lay and Jesuit faculty and the men and women of Boston College today and tomorrow.

\*Figures shown are a projection. The Classes of 1960, 1961, and 1962 directed their own capital fund raising programs during their last few months as seniors. These three classes raised \$250,000. This year's Senior Class, the Centennial Class of 1963, is in the final days of the Senior Gift Program and has already reported \$143,000 pledged. They have surpassed their minimum goal of \$125,000. They estimate that their upper-limit goal of \$150,000 will be reached at any minute. The total of \$150,000 was used for the projection.

## CAMPAIGN SUMMARY

Very Reverend Michael P. Walsh, S.J. announced that \$9,780,000 has been raised to date. Since the 100th Anniversary Development Program was inaugurated in October 1961 — 19 months ago — this significant total has been pledged and contributed to Boston College.

A total of 6,102 Alumni have pledged \$5,600,000 representing the largest number of donors and the largest amount ever contributed by Alumni. About 350 Alumni Special Gifts prospects have yet to determine their gifts. The Alumni General Gifts Division, which began in March 1962, will continue through 1963 and early 1964 contacting about 10,000 remaining prospects.

Non-Alumni, including individuals, corporations, and foundations, have contributed \$4,180,000. These gifts have come through the Advance Gifts, Parents, Corporations, and Non-Alum-

ni Special Gifts Divisions. Approximately 3,300 prospects remain to be solicited for gifts through these Divisions.

Father Walsh indicated in his report to Alumni that the pace of the Development Program, which has been a steady one, is evidence that the \$15,000,000 goal will be attained in 1964.

### NON-ALUMNI

The \$4,180,000 from non-Alumni has been raised from 1,058 prospects. These gifts range from \$250,000 from a successful businessman to a sacrificial gift of \$25 from a bed-ridden patient in a Veterans Hospital.

An example of the generous support Boston College is receiving is shown in the following figures of industrial and business groups:

Food ..... \$877,800  
 Manufacturing ..... 418,320

Banking ..... 101,482  
 Insurance ..... 172,500  
 Retail ..... 107,500  
 Fuel ..... 309,000

Foundations have contributed \$597,255 in gifts. Pledges from non-Alumni individuals giving more than \$100 have averaged \$4,200. With a total of 3,300 prospects yet to be contacted for gifts, it is expected that the amount to be raised from these sources will result in another \$4.5 million being raised during the next twelve months.

With the leadership of the Advance Gifts, Corporations, Parents and Non-Alumni Special Gifts in the hands of Adrian F. O'Keefe, Vincent C. Ziegler, Edmund J. Connolly and George L. White, it is reasonable to assume that the next year will crown the efforts of this phase of the Development Program with unusual success.

## THE YEAR OF THE EAGLE

The 1962-63 academic year at Boston College is rushing to a close, and it certainly has been a most memorable one.

With "Excellence" the theme of every endeavor in the truly remarkable accomplishments made by Alma Mater in her Centennial Year, we feel that the athletes who wore the Maroon and Gold contributed 100 percent plus in the world of intercollegiate athletics.

Jim Miller's football team got us off on the right foot last Fall and posted a splendid 8 and 2 record, commanding national attention.

John "Snooks" Kelley then guided his Eagles to a marvelous 22 and 9 record, capturing the coveted E.C.A.C. Christmas Tournament Championship in New York, the Bean Pot Championship, and a berth in the four-team National Championship held at our own McHugh Forum.

While the hockey team was winning glory on the ice, Frank Power's basketball team was more than holding its own on the court. A thin B.C. team was immense against national powers like West Virginia, Miami, and Duquesne, and won the first Bean Pot Basketball Championship, symbolic of Greater Boston Collegiate supremacy, with two thrilling overtime victories over Tufts and Northeastern.

Bill Gilligan's track team continued to reap the harvest, copping the Greater Boston Indoor Meet Championship en route to compiling an enviable indoor record.

The outdoor track team picked up the momentum and to date can boast about the tremendous Penn Relay vic-

tory, and about being undefeated in three meets.

Finally, Eddie Pellagrini's baseball team, not given much thought by pre-season experts, is currently sporting a 9 and 1 record, the best in New England.

We feel this collective effort by our five major athletic teams rates "Excellence" with a capital "E"!

## FOOTBALL

### A Brief Recap of the '62 Season

Coach Jim Miller guided Boston College to an outstanding 8 and 2 record in his first year. When considering that Miller met a squad completely new to him at the beginning of Spring practice and had not completed his coaching staff until mid-summer, plus the fact that no member of the varsity squad had ever been on a winning team at B.C., Miller and the Eagles' accomplishments were truly remarkable. B.C. won its first three games (scored on the first play of the first two games), including an opening 27-0 win over Miller's "old" University of Detroit eleven. Then the Eagles lost to Syracuse and Navy when eight of the first and second unit members were injured, but bounced back to win the last five straight and finish strong, each win a little more impressive than the last.

### A General-Outlook for the '63 Season

Coach Miller now has both feet solidly on the ground at Boston College. He has an excellent, young staff—the coaches know the players and the players know the coaches—and have great confidence in them and in each other.

They are now a winning team and the morale and "esprit de corps" has never been better. Miller looks forward to the '63 season with spirited optimism. Yet, he very definitely has his work cut out for him. He will lose 29 lettermen through graduation; at least half of them were excellent football players. The Eagles will be hurting up front with five guards, six tackles, and seven ends graduating. The toughest position to rebuild will be tackle, where only one proven player will return to action. The brightest aspect is the backfield, with quality as well as quantity returning. Twenty-two lettermen, 25 non-lettermen, and about 35 freshman hopefuls were out for Spring practice. In all, some 80 candidates reported for Spring practice on March 26.

### A Report on Spring Practice

The Boston College football team concluded what coach Jim Miller termed a "very satisfactory Spring session" last Saturday, when the veteran Maroon team vanquished the White, 36-6, before 6,500 at Alumni Stadium.

Miller set out to determine a three-deep quality personnel, and the transplanted Ohioan feels that he has done that.

"We hope to have three strong units ready for the opener at Syracuse, although there may be 15 or 16 sophomores among the top 33," noted Miller.

Missing from the final two weeks of Spring drills were All-American candidate Jack Concannon, one of the nation's finest quarterbacks, and halfback Jim McGowan, the Eagles' defensive quarterback who ranked well among the nation's top pass-interceptors. Both were playing on the B.C. varsity baseball team, Concannon pitching and McGowan playing in the outfield.

Miller analyzed his squad very precisely:

**QUARTERBACK** — "Concannon, of course, is a great quarterback, as he proved last year. He runs the 100 in less than ten seconds, can throw, and is a smart play-caller. Senior Phil Carlino plays very steady, junior Steve Murray excelled during the Spring after placing among the nation's top punters last year, and sophomore Larry Marzetti is going to develop into a top quarterback very soon, as is sophomore Ed Foley who was hampered with a bad leg all Spring."

**LEFT HALFBACK**—"Bobby Shann and John Barrett both can run, both can catch the ball, and both are shifty. They alternated on the first team this Spring. Gary Testa will be at No. 3."

**RIGHT HALFBACK** — "Pete Shaughnessey runs with the first team and plays well both ways. McGowan work especially on defense, but also is an excellent runner. Sophomore Bob Budzinski looked real fine this Spring."

**FULLBACK** — "Walt Dubzinski, John Walsh, and sophomore Ron Gentili, a 6ft. 3in., 200-pounder, were the top three. However, junior Don Moran had a pulled hamstring and he'll figure there, don't worry."

"Sophomore halfbacks Dan Hostetter and Hank Blaha also showed promising potential."

**END** — "Good depth here, with captain Joe Lukis shining on defense and junior Jim Whalen, a good dash-man with a fine pair of hands, assuming some of Artie Graham's pass-catching duties. Whalen caught six touchdown passes last season. Bill Cronin looks good; so do sophomores Charlie Smith, John Williamson, and Dick Capp."

**TACKLE**—"Must develop here, with 6ft. 3in., 225-pound letterman John Frechette, a junior, the only holdover. Emil Kleiner, a guard last year, did a fine job this Spring at tackle. He's also 6ft. 3in., 225-pounds. Dan Tanacito, idle the past three years, surprised at tackle and Frank Grywalski, 6ft. 4in., 220-pounder, may move over from end."

**GUARD** — "We're in pretty good shape here, with juniors Dick Cremin and Frank DeFelice returning as lettermen, and sophomore Marty DeMezza and John Leone looking real good this Spring."

**CENTER** — "Bart Connelly missed the Spring session with an injury, but letterman Frank Fitzgibbons also can do the job. Connelly will be back in the Fall."

Miller, whose club didn't miss a day of practice this Spring, naturally is concerned about the inexperience of his young line, but is greatly impressed by the desire and the ability of his young charges to quickly apply teaching.

"We'll be lighter, but faster, next Fall," said Miller.

The affable Miller summed up the

entire situation with this quote: "We'll run up against one of the toughest Syracuse clubs in years when we open on September 21. It'll be a typical Ben Schwartzwalder eleven, "tough up the middle." But don't worry, we'll be in every ball game, and we'll be a threat in every game, from the opener with Syracuse, right through the schedule."

## TRACK

The B.C. track team came within three points of upsetting Harvard in the second annual Greater Boston Collegiate track meet held recently. However, the Eagles still are undefeated in dual competition, having trounced Brandeis, edged Maine, and routed Boston University on successive Saturdays.

Also, the B.C. quartet of Larry Rawson, Bob Gilvey, captain Jim Owens, and Phil Jutras surprised the track world by winning the College Distance Medley Relay Championship and upsetting supposedly unbeatable Villanova and a strong Fordham team at the Penn Relays. It was B.C.'s first win in the Penn Relays in 31 years.

Rawson, a senior from Auburndale, established two records in the Greater Boston Meet, and also ran the final leg—one mile—at the Penn Relays. Jutras, a sophomore who has been injured most of the year, ran  $\frac{3}{4}$ ths of a mile in 3:01 at the Penn Relays to propel the Eagles into a 35-yard lead which Rawson maintained with a steady pace in the final phase, the mile.

Larry Flynn, a senior from West Roxbury, repeated his 100 and 220 triumphs of last year in the Greater Boston Meet and—with Rawson—spearheaded the Eagles' final day drive, which shaved off 20 points from Harvard's first day margin compiled in the field events.

Gilvey, a runner with a tremendous future, won the 440 and also sped the B.C. mile-relay quintet—Gilvey, Owens, Flynn, and Rinella—to a 15-yard lead en route to an easy win over the other local schools.

## BASEBALL

It's been quite a "rebuilding" year for coach Eddie Pellagrini and the Boston College baseball team. After all,

Basketball player Charlie Carr congratulated by Fr. Sullivan on being selected first winner of the Francis V. Sullivan, S.J. Varsity Club Scholarship Award at the Alumni Homecoming Supper.

how many teams in the "rebuilding" stage win nine of their first ten games. Very few, if any.

Backed by the consistently outstanding hitting of Jimmy Buccigross, Art Graham, Bill Mulcahy, John Frame, Jim McGowan, and Captain Bobby DeFelice, Pelly's club has raced to a 9 and 1 start, losing only to Northeastern, 6-1. Also, the Eagles hold the lead in the Greater Boston League with a 6 and 1 record.

Buccigross, a senior from South Boston, and Mulcahy, a speedy sophomore from West Roxbury, are hitting near the .500 mark; while Frame, a steady second baseman, is over .400. Graham has been supplying the long ball, including two tremendous homeruns to cap a comeback win over St. Peter's.

Pitching was supposedly the weak spot of the B.C. club, but—aided by the perfect handling of Bobby DeFelice, undoubtedly the best catcher in New England—the pitchers have performed very well. Jack McGann's earned-run average is down around 2.00 while football quarterback Jack Concannon, an All-American nominee, has pitched exceptionally well and is undefeated to date, with three wins.

Also, right hander Art "Buddy" Carter is unbeaten with three wins. and sophomore Dick Beauchesene is developing quickly, reports Pellagrini.

Footballer Jim McGowan has had some important hits and has played perfectly in the left field. Sophomore Tom Carloni has been improving at shortstop.

# THE HISTORY OF BOSTON COLLEGE

On April 1, 1863, John Albion Andrew, Governor of the Commonwealth of Massachusetts, signed into existence the trustees of Boston College. Fr. McElroy had finally built his dream; within days Fr. Bapst assumed the presidency, years later Fr. Gasson brought the dream from Harrison Avenue to the present Gothic site in Newton. And you came. Remember the campus? It's probably changed some since you were here. But for years the university has been collecting material in preparation for the Centennial, and now the 1963 *Sub Turri* has completed a collation of this material into one fabulous Centennial History.

One hundred seventy-five large 9x12 pages, complete with full color. Photographs, drawings, pictures of the campus as it developed (like the reflection picture on the left), sports (such as the Georgetown game that Grantland Rice called the "greatest college football game" and the 1949 NCAA hockey championships), Centennial Celebrations—everything which stands out in one hundred years of Boston College history is chronicled photographically in this volume.

The price is ten dollars. For this you receive an unmatched record of your alma mater's growth over the last century. About the end of July (It must be this late in order that the events of the Centennial Year can be adequately covered.), we will mail to you your copy of this volume. Fill out the order blank below. Send it with your check or money order to: *Sub Turri*, Boston College, Chestnut Hill 67, Massachusetts. Please do it today—we must place our final order with the printer in the very near future.

Sunday, April 28th, 1963 will always be a memorable date for the Golden Anniversary Class of 1913! Thirteen classmates, with their relatives and friends assembled in St. Mary's Chapel for a Memorial Mass for our twenty-five deceased classmates. This was followed by a delightful banquet in Alumni Hall where Father Rector was the chief guest. One of the highlights of the occasion was the presence of the widow of **LESLIE HEATH**, her son, a Dominican priest, and her daughter. Two other sons are also Dominicans, one in Philadelphia, the other in South Bend. A second daughter is a Maryknoll Nun, in charge of an orphanage in Hong Kong, China.

It was nice to welcome **MARTIN O'CONNOR** and his family. Incidentally, he is the only living ex-President of Framingham Teachers' College for whom a new building has been named. Nice going Marty. Present also was the very personable Joanne Fitzgerald, the fifteen-year-old daughter of classmate, **JOE**.

Keep in mind the Alumni banquet of June 2nd and Alumni Day on Friday June 7th.

**14** JOHN S. KEOHANE  
1147 Tremont St., Boston

Bishop **ERIC F. MacKENZIE** represented the Class at the Centennial Mass which was celebrated at the Cathedral of the Holy Cross on March 30 and gave the Benediction after the Luncheon that afternoon at McElroy Commons.

**JOHN KEOHANE** was one of the Marshals. We were happy to see **ED SHARKEY** at the Centennial Luncheon. It was almost fifty years since we had met. After working many years for the Pullman Company in Chicago, he has now returned here and is living at Newton Centre.

Father **JOEBUSAM, S.J.**, of the College of the Holy Cross attended the Patriots' Day Dinner of the State Council K. of C. and represented his Father Rector. Father Joe is the permanent Chaplain of Crusader Council, K. of C.

Father **JAMES KELLEY, S.J.**, stationed at the Provincial House in Boston was a patient at St. Elizabeth's Hospital recently but was able to avoid an operation and now has returned to his duties.

Monsignor **TIM GLEASON** was hit by an automobile recently and suffered a broken leg. However, he has come along well and was expected to be home early in May.

**JIM DUNBAR** who has retired from the Boston School System is enjoying a well-earned rest at home and at the shore.

**ED SULLIVAN** tore himself away from his idyllic estate at the Cape to be a speaker at the St. Patrick's Day Dinner of the Clover Club.

**16** JAMES L. O'BRIEN  
41 Pond Circle, Jamaica Plain

**DR. ROY HEFFERNAN**, Chairman of the National Advisory Committee to the Selective Service on the selection of physicians, dentists and allied specialists for the armed forces, recently visited General Hershey, National Director of Selective Service.

**DR. BRUNING** who had been ill for a long period of time, died on April 19, 1963. May he rest in peace.

The class is saddened by the death of **BILL DOWNEY** on March 4, 1963, after a short illness.

**BILL MURPHY** is quite ill but his wife tells me he is in excellent spirit. Bill's

mother passed away recently. She was in her ninetieth year.

**MSGR. McNULTY** informed me of the death of **BILL TOOMEY's** sister. Kindly remember our deceased classmates and their relatives in your prayers.

**PAT DONOVAN** and **JACK ATKINSON** had a very pleasant vacation at Ft. Lauderdale. Jack, who is one of the College regents, has been very active in all the Centennial events.

Our Class President, **MSGR. DALY**, must be very friendly with President Kennedy, as the President made a stop in front of St. Columbkille's.

**LEO GALLAGHER** and his wife plan to go to California this summer.

A Timely thought!

We entered as freshmen in the fall of 1913—the year that Boston College observed its 50th Anniversary and moved out of town to Chestnut Hill. We were the first class to complete four years on the new campus. We attended classes in the only building then erected—the Tower Building. We have watched the almost incredible growth of the College into a university. What better way to express our appreciation to our Alma Mater on this her 100th Anniversary than to make a worthwhile pledge to the Development Fund! If you have not had a visit from a worker for the Development Fund write or call the Fund Office and let it be known that you want to join in this birthday party. Don't put it aside. Do it now. Call DE 2-3200, Ext. 295. You will be proud of yourself to observe your own anniversary as well as the Centennial of Boston College. And, what is more, you will gladden the heart of Fr. Walsh who has put all his energies into the success of the Development Fund Drive. Don't let him down!

**JIM McMURRER** who was with us in freshman dropped out during sophomore year due to illness. He never returned. After his recovery he served in WWI and later in WW2. He has two boys, both graduates of BC, one in '52 the other in '59. Now retired and living in Bradford, Mass., he has made a gift to the Development Fund as a parent with happy memories of his days with us. He wishes to be remembered to the members of the class. Thanks, Jim, it was a pleasure hearing from you.

**EDDIE TOBIN** has retired as a dentist from the Veterans' Administration after 20 years in the Rutland Hospital. Prior to that he practiced dentistry in Brighton. Now living in Hancock Village he and his wife will be able to keep in close touch with our activities. Welcome back Eddie.

**FRANK HEANUE** left for a trip to Ireland in the middle of April. He planned a month's tour by motor car.

At the Centennial Mass and luncheon the following with their wives were present: **MARTY HIGGINS, BILL REID, BO MAHONEY, JACK DOYLE, JOE DEE, JOHN FLYNN, DR. CY LYDON, DR.**

**EDDIE TOBIN, TOM CRAVEN**, also **CHARLIE SHARKEY** and his brother and **MOSE MURPHY**.

**GEORGE CARROLL THOMPSON** passed away in Baltimore last November after a long illness. For many years he had been a professor of chemistry at Loyola College. Prior to that he taught at Mt. St. Mary's College, Emmitsburg, Md. The sympathy of the class is extended to his wife and to his family. May he rest in peace.

**DAN O'CONNOR** is back on the job after a long bout with illness during the winter. He tells me that he is now down to 200 lbs. His father, Thomas D., attends to his business, each week making two trips to the office—age 96½ years! What's the secret, Dan, goat's milk, Irish oatmeal or just Irish Mist?

**JACK MULCAHY** now boasts eighteen grandchildren.

**18** M. FRANCIS NOLAN  
17 So. Normandy Ave., Cambridge 38

We have rather world-wide flavor for this issue. Was pleased to talk to our own Bishop **JOHN J. McELENNEY, S.J.**, of Kingston, Jamaica, who attended the Centennial Mass and Luncheon. Also in attendance, **JOHN HOBAN, BILL** and **Mrs. HERLIHY, CLARENCE** and **Mrs. GREENE, BILL GROSS, CHARLIE FITZGERALD, FRANK FRAZIER** and **CLARENCE PIKE**.

Sympathy and prayers of the class for **FRANK FRAZIER's** wife, Kathryn, who died on February 17th. Had a most interesting letter from our other Bishop **VINCENT I. KENNEALLY, S.J.**, of the Vicariate of the Caroline and Marshall Islands. His residence is in Truk and he informs me that he attended the Ecumenical Council in Rome from October to December 1962. He wrote from the island of Yap where another Bostonian, **FATHER FRED BAILEY**, a B. C. H. Grad. has been stationed for 15 years. He also advises me that any of you who wish to dedicate your declining years to the Peace Corps in his area will be most welcome as teachers, construction workers or even sailors before the mast.

**BILL GROSS** has blossomed out as an author. His "Herod the Great", a biography, is being published by the Helicon Press, Baltimore, Maryland.

**BILL HERLIHY's** eldest son, a U. S. Naval Academy grad., has been teaching engineering at the Academy for the past 2 years; his second boy is in business with Bill and the youngest is in the service in Louisiana.

Have notes periodically from **FRANK GATELY, DAN HARKINS, DAN MURPHY, JOHN O'DONNELL** and **BILL CASHIN**. Would welcome news from all the rest of you. Do not forget that this year we are an anniversary Class, 45th, to be exact, and Alumni Day is June 7th. How about being there on that date?

**'19** FRANCIS J. ROLAND  
10 Homewood Rd., West Roxbury 32

The formal opening of the Centennial Observance at the Cathedral of the Holy Cross on March 30 and the subsequent luncheon at McElroy Commons will be events permanently fixed in our memories. Many were the references to the "olden days" when the Tower Building alone was standing and the members of the faculty travelled daily from 761 Harrison Avenue. Sincere gratitude and the heartiest of congratulations are due to BILL RYAN, PETER QUINN, WALLY BOUDREAU and TOM MURRAY for a splendidly organized and efficiently executed schedule. The Class was represented by REV. MARTIN HARNEY S.J., JOE DONAHOE, JOHN GORMAN, BILL O'CONNOR, FRANK ROLAND, TOM BRESNAHAN and ARCHIE MCKENZIE.

We congratulate our REV. DENNIS J. FITZPATRICK, pastor of St. Margaret's Parish in Burlington, Massachusetts. He is now "Monsignor Dinnie".

BILL CONDON of Whitman was called home to God on February 1, 1963. Our prayers for him and for his loved ones. We remember Bill as a quiet, loyal, lovable, cultured gentleman. May he rest in eternal peace!

Sad indeed are the Class notes this issue—recording the passing of two of our most lovable classmates, FATHER LEO FLYNN and DR. JIM MEEHAN. Father Leo, pastor of St. Jude's in Norfolk, was beloved by all including the inmates at Norfolk Prison, who in an unprecedented manner, honored him at the prison Mass. Dr. Meehan, outstanding obstetrician of Milton, after a brilliant career, passed away suddenly in March leaving a fine family of four daughters and a son.

Reflected honor came to '22 by Pope John's naming HENRY FOLEY a Knight of Malta. Henry received the honor in St. Patrick's Cathedral in New York, Cardinal Spellman officiating.

FATHER CHARLES EBERLE, S.J., has brought another major project to a successful completion in Jamaica, this time opening a St. Jude's Mission in Kingston. Father Eberle celebrated the Mass. His Excellency, Bishop McElaney, S.J., gave the blessing and Father Harry Mallette, S.J. was orator of the day.

FATHER JOHN CONNORS had a pleasant visit with AL CHAPMAN at Chappie's home in the American Virgin Islands. Father Connors is high in his praise of the Chapmans.

BILL SHEEHAN was Commencement speaker at the graduation convocation at Chamberlayne Junior College. As usual, his talk was excellent and inspiring. The Commencement had a class tinge with MATTHEW MALLOY, present Dean and FATHER FRANCIS ANDREWS, S.J., who gave the invocation.

We have finally located STEVE LYONS, who was with us at old B. C. High. Steve is a successful businessman in San Juan, Puerto Rico.

An important event during Alumni Week will be the gathering of the Class and their wives at St. Mary's Chapel on June 6th for Holy Mass at 5:30 P.M. which our classmate Fr. CROKE will celebrate, and which will be followed by a dinner at Alumni Hall. CECE MCGOLDRICK has worked very hard to arrange this affair on our 40th Anniversary of that Big Day at the Heights and we are looking forward to a wonderful get-together. Try not to miss it.

At the Centennial Mass at the Cathedral and the luncheon that followed at McElroy Commons, an event never to be forgotten

by those of us privileged to attend, we met FR. TOM LANE, in from Newburyport and looking very well, JOE SWEENEY, GAYNOR WELLINGS, JOE CRANE, LOUIS TRACY and CECE MCGOLDRICK and of course the wives which added to the enjoyment. CECE was one of the Marshals at the Cathedral and I think we will have to name him MR. CLASS, as he has been doing a tremendous amount of work for us.

On the day of the Convocation we met the regulars, plus FR. PAT COLLINS, FR. ED. CROKE, GEORGE OLESEN and TED GARRITY, who had just returned from a Curling match up in Canada.

From LOUIS TRACY we learned that his daughter, Ann, Regis College 1956 has two lovely children, of whom Louis is very proud.

HENRY SUPPLE, as most of you know, is still with A. P. His son Jerome, Class of '57, B. C. received his Ph.D. in Chemistry from the University of New Hampshire and is now doing Post Doctorate research in chemistry at the University of California in Berkeley, Cal. His daughter, Colette, has three children.

FR. PAT COLLINS extends an invitation to all his classmates to visit him up at Gonzaga Retreat House in Gloucester. He has just completed a great deal of improvement to the house and grounds and is a retreat worker with Catholic High School students.

DR. and Mrs. JIM DELANEY have just returned from a trip to Denmark where they were visiting their grandchildren.

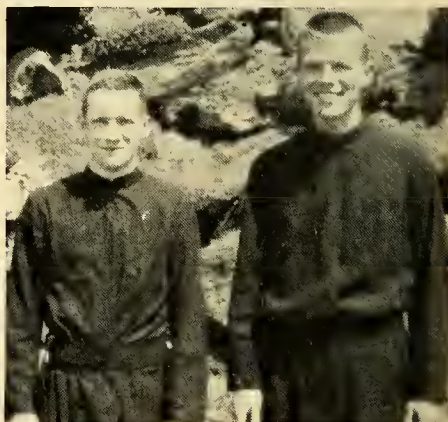

AL BEDARD sends his greetings to the boys up here and has just returned from a trip to Washington where he visited with son, Alfred Jr. B. C. '57, who is with the National Bureau of Standards.

We have just learned that JOHN FLAVIN has spent several weeks in the hospital, but is now at home resting. We all certainly wish him a very speedy recovery.

Also on the sick list is our fine classmate JOE GALVIN. Joe has been in and out of the hospital recently and we hope he is now progressing rapidly towards good health.

43 years ago, on their first day at B.C., two lads became so attached to each other that no Classmate has ever thought of one without the other ever since. Pictured before you is an evidence of this close union and of their mutual devotion to the Class Motto, "Noblesse Oblige".

James F. Walsh and Anthony Soldarini, Jesuit Novice sons of Jim '24 and Roger '24.

Photographed at Shadowbrook where both are novices are James F. (left), son of our JIM WALSH and Anthony, son of

ROGER SALDARINI, and also Jim's godson, '24 which boasts two Jesuits in the persons of FATHER BILL LUCEY, S.J., and FATHER ED CALLAHAN, S.J., now is thus represented by the next generation in the Army of Ignatius. Roger is Asst. Principal of the Charles Logue School in Mattapan, and Harriet and he live nearby. Jim is an executive in First National Stores, Louise and he live in Braintree. Mary Lou is a Freshman at Emmanuel and Bob, Roger's godson by the way, is a Freshman at B. C. High.

TOM DEELY is getting ready to go back to his English scholars at Boston Latin School after a severe bout this winter involving two cataract operations on his eyes. I have promised him prayers for further recovery and hope those around Boston will keep in touch with him at 731 Cummins Highway near Mattapan Square.

Pray for the souls of Henry Jennings and Ray Duffy. R.I.P.

ED BARRY is Principal of the Cleveland Junior High, Boston. His son, Lieut. Thomas J. BC '56, Annapolis '58, is Executive Officer on a destroyer in the Gulf of Laos as this is written and has provided Ed and Agnes with a grandson. Lieut. Barbara Barry is Asst. Director of the Waves School at Newport. Ed, himself, a Captain USNR, walking with a true naval roll, faithfully attends all BC functions.

Somehow missed in the notes a year ago was CONNIE MURPHY's son, Robert Whelton, BC '59, Columbia School of Hospital Administration '61, who was married to Patricia Skinner of Jamaica Plain last February. Am saving up for a big report in December '64 when Connie's William will be ordained in Rome.

Claiming to be at the head of the Class with 14 grandchildren, GEORGE DOUGLASS is with McCall Publishing Company and living in Baldwin on Long Island, N.Y. LES HOURIHAN will survey the Class and verify his claim to Primacy. Les is President of Underwriters Reports, Inc., lives in Winthrop. Mary is graduating from Marymount College, Arlington, Va. this June.

Another survey which should be started is one on the priests in the Class. Your scribe would love to receive all available information. As a starter, GEORGE SULLIVAN is Pastor of St. Mary, Star of the Sea, Church in East Boston. He is also Administrator of Our Lady of the Airways Chapel, Gate 12, Logan Airport, where he prays everybody up and down both foreign and domestic. George has also lectured on Philosophy at Regis College for 17 years. You can see if he isn't "in the clouds" he's definitely "on the heights."

TOM COLLERAN's four daughters have brought lustre to the name. Mary, a graduate of Framingham State Teachers College, is married and has two children. Ellen, a graduate of Boston State, is teaching in Norwood. Claire, a grad of Mass. College of Art, is Art Director at Sparks, Inc. in Norwood, and Kathleen, is a Freshman at Catherine Laboure School of Nursing. Tom is Principal of the Robert G. Shaw Junior High in W. Roxbury.

SYL CONNOLLY's life-long hobby as an amateur radio "Ham" is putting various missionaries (Maryknoll, St. James the Apostle, Carmelite Sons of Mary) through by telephone and radio to their families. They talk directly together from Peru, Bolivia, Chile, etc. Papal volunteers and Peace Corps members have also been helped by Syl. Anyone with relatives in South or Central America should write Sylvester, 65 Pleasant St., Hingham or visit Syl at Jordan Marsh's Furniture Dept.

JOHN BROWNE and Alice are living

in Belmont. John is a Survey and Estimate Engineer for New Eng. Tel. & Tel. His eldest daughter, a Sister of St. Joseph, receives her AB from Regis in June and has been accepted by the Univ. of Toronto as candidate for an AM in French. Bob, BC '56, is with New Eng. Tel. also. Dick will enter Northeastern in September. John, Jr. enters Matignon this Fall.

Eighteen years with Aetna, starting part time at BC H and twenty-seven years as President of Lehrer & Madden, Inc., Boston and Wellesley, really has LES MADDEN "in the groove." Alicia, originally a Virginian, and he are happy to have Nancy Lee, a graduate of Marymount College, N.Y. back home with them. Mary Bernadine, Newton College of the Sacred Heart, is married to John Thornton of Milton. This union has given Les and Alicia the distinction of becoming grandparents twice in the same year, both grandchildren, boy and girl, being premature. Jack is in his second year at BC Law. Leslie, Jr. is a Freshman at BC, School of Business Administration.

Twenty-six were present at the annual Mass for our deceased classmates celebrated in St. Mary's Chapel at the Heights by Father John Tobin, S.J. on Low Sunday. Through the hospitality of CHRIS DUNCAN a delicious Communion Breakfast replete with Champagne was served at Brae Burn Country Club. Present were MARTIN MURRAY, PHIL CLEARY, NICK CORBETT, CHRIS DUNCAN, JOE ROONEY, JOE TRIBBLE, ED BARRY, LES HOURIHAN, ROGER SALDARINI, JIM WALSH, SYL CONNOLLY, JACK PYNE, JOHN MONAHAN, FRANK KELLY, CONNIE MURPHY, GENE CAMPBELL, WALTER CONWAY, JIM KELLAHER, TOM COLLERAN, JIM GRADY, TONY LEBLANC, and his son, DOC CARROLL, J. P. SULLIVAN, JOHN BROWNE and ED MURPHY.

Classmates, we regret announcing to you the death of JIM NAGLE on April 18 last. A note from his brother, Fr. John, pastor of St. Joseph's in East Pepperell, had reached me only that same day, telling me that Jim was seriously ill at the West Roxbury Veterans' Hospital and asking us to pray for him. Jim was from 6th Street in Southie, taught for some years in the Boston system and, during the war, became a captain in the Army Air Force. Shortly after, he resigned from the Boston system.

On the brighter side, we are all proud of the honor that has come to CONNIE MOYNIHAN, our newest judge of the Superior Court. Connie has been a special justice of the Haverhill District Court since 1934 and a distinguished member of the faculty of our excellent Law School for many years. May he have many good years on the bench; he is a credit to us and to the College. PAUL SULLIVAN was chairman of the Massachusetts Reserve Officers Association convention held in April. Paul served as Lt. Cmdr. on the staff of the Atlantic Fleet commander during the last big mess and now works in the contract division of the public works office of the First Naval District.

It was enjoyable to see so many of the boys at the Mass opening the Centennial celebration and at the luncheon at the Heights afterwards. That was an inspiring and rewarding day. We regret that we didn't get together for a class dinner this winter; someone goofed, but we'll make it up in June, we hope. DR. BOB O. may have a surprise for us. Saw TOM CAV at

Internal Revenue while being gone over by the IRS boys. We hope to take part again in the annual Alumni Golf Outing, this year at South Shore Country Club; must contact ART MURRAY and JOHN DOOLEY. It's a great take-in; why not join us? Dool was in Denver the last week in April for a national convention of the Audio Visual Instruction people. CHARLIE SCHROEDER looked quite happy behind the wheel of his new Cunningham-sold Chevy this week.

You old B. C. Highers, there's a reunion at the new high school on May 27th for the "older" classes. Looks like we've made it—that "older" category, we mean. From the B. C. H. Bugle, we steal some news: REV. ED. "GOOSE" DOWD is pastor of Blessed Sacrament Parish in Hough's Neck; FRANK CARNEY still serves on the Speakers' Bureau of the central Holy Name Society. FR. BERNARD FIEKERS, S.J. is the editor of a regularly published newsletter out of the Chemistry Department at Holy Cross.

We hope that we will see many of you at the various exercises in connection with the Centennial celebration during June, especially Alumni Day and don't forget to get those payments in for the College.

Getting the last of the Cunninghams into college this fall as Rosemary enters Framingham State; John will be a senior in A&S this fall. It's getting late, isn't it?

As of April 30 the Class of 1927 has pledged a sum of \$49,974 in the Centennial Development Program. Fifty-two classmates have made pledges averaging \$961.00. Men of 1927 who have not yet been solicited for a pledge are urged to communicate with the class correspondent whose address is above.

Seen at the Centennial Mass at the Cathedral and at the ensuing lunch at the McElroy Commons on March 30 were: BISHOP JOHN COMBER, MSGR. JOSEPH LYONS, MSGR. WALTER LEACH, FR. JOSEPH MCCALL, FR. MARTIN HARNEY, S.J., PRES. FRANK X. SULLIVAN, JOHN COSTELLO, TOM HEFFERNAN, JOE MCKENNEY, DR. TIM LYONS, CAPT. JOHN "REVERE" SULLIVAN, JIM WALSH, and JACK BUCKLEY.

The Cardinal presided at the dedication of a beautiful new shrine showing Christ as Lover of Children at St. Jeremiah's Church, Framingham. The pastor, REV. JOSEPH MCCALL, was inspired to pen a most appropriate poem for the occasion.

JACK DESMOND, retired from the Boston School System, is teaching at Newman Prep.

JIM WALSH's son, Jim Junior, has finished a stint with the Army and is teaching in Boston.

BILL OHRENBERGER continues to devote a great part of his busy life to his most important function, improvement of instruction in the Boston schools. Excellent

results are seen in all levels of education especially in the areas of Science, Math, and Modern Foreign Languages.

DR. DANIEL H. O'LEARY, President of Lowell State College, was in the long procession of academic luminaries who added color to the Centennial Celebration held on Alumni Field on Saturday, April 20. An alumnus of a neighboring college seemed to be the center of attraction.

Alumni Day will be soon upon us at which time Fr. Rector will make the report on Alumni support for the Centennial Drive for the year 1962-1963. There are many men in the class who intend to make a pledge but who have not been approached. All gifts before the date of our Alumni gathering will be doubly welcome. Make a pledge, large or small. Pledges may be paid over a period of three years. The pledges in the drive, generally, range from the minimal \$360.00 to many thousands of dollars. **THE CLASS OF 1927 CAN DO MORE FOR BOSTON COLLEGE.**

After doing such a remarkably fine job on this section for so many years, LUKE DOYLE is following Bob Cousy's example and stepping down. It won't be easy to follow the LUCIUS who will get a fat, gold watch at the next dinner. To LUKE and his wife our best wishes.

The amount of work and preparation that went into the Boston College Centennial celebration must have been overwhelming. The presence of so many scholars from throughout the country who contributed to the theme, "The Knowledge Explosion", was a tribute to ten decades of hard work by the Jesuits. Justifiably so. Our sincere appreciation to Fr. Rector and to the men of the Society.

Apropos appreciation, a very substantial contribution to the Development Fund of Boston College would be fitting.

It's a little unnerving to mention the figure, but this is our 35th anniversary year, and there are plans underway. The family benediction will be past when you read this. You will be notified by mail of the other events. It would be fine if some of the long lost brethren would be in the line of march on Alumni Day. Members of the undergraduate honor society, the Gold Key, will furnish piggy back rides to the faint hearted.

The class dinner in March was very pleasant. Unfortunately, I have no list of those who attended. I'll do better the next time.

The Centennial Mass at the Cathedral

was impressive. At McElroy Commons there were many members of the class at the luncheon. I probably missed some of the many who attended. There were wives of course—many of them, and very attractive persons. And in that connection, the members of the class are smarter than I thought. A few names of those at the luncheon . . . BILL CASHMAN, DICK CONDON, ED CONNOLLY, TIM CRO-  
NIN, JIM CURRAN, JACK DOHERTY, MAURICE DOWNEY, LUKE DOYLE, CHARLIE DRISCOLL, DAN DRISCOLL, JIM DUFFY, MATT GALLAHUE, WALTER GAUDET, WILSON GEARY, TOM GEMELLI, MIKE GILARDE, BILL HARRINGTON, JOHN HUGHES, CHARLIE KELLY, FRED L'ECUYER, JOE (Law) McCARTHY, JOHN MCGILLIVRAY, MAL McLEOD, FR. TOM MURPHY, VIC NEWTON, ED O'BRIEN, ALAN O'FARRELL, JOHN O'LOUGHLIN, GENE PLOCIENNIK.

Random gleanings . . . VIC NEWTON's son, in the 7th year in the Society of Jesus, is in Boston working for a doctorate at M.I.T. in the field of physics. Looking back to his own experience with Fr. Lynch in the physics lab, VIC's belief in heredity is shaken . . . Since Dr. HERB OTT first hung his shingle in 1933, he has done a masterful job for this family. HERB has a long memory for the freshman Latin class, and when he has a drill in his hand, it is a matter of simple self-preservation not to remind him of Charlie Dowd's frustration in handling the Horace inter-linear . . . DICK CONDON's son, Richard, will get his degree in June . . . FRED L'ECUYER's son, Bill, (A&S '63) had the proper approach for the car keys at the class dinner. . . . OWEN DOOLEY's wife, Alice, is just a little too young to be breaking a hip. But she did in hurdling a snow bank . . . Telephoned to MARTIN KANE in Massapequa, N. Y. Helen said he was in Florida covering a story for Sports Illustrated where he is a senior editor. Two daughters married and the son in the army . . . HAROLD QUALTERS, Principal of Mansfield J. H. S., gloats when he sees his proteges Carlino and Gentile on the varsity . . . CHARLIE DRISCOLL up another notch as V. P. at Middlesex County National Bank . . . DAN DRISCOLL may say he doesn't know technical football, but as a member of the Graduate Board, he voted for Jim Miller . . . You can bet that BILL GREEN's fine family of eleven children won't be topped in this class. . . ED BECHERER is busy running his business as landscape engineer. If it were not for Ed's coaching in the physics class, this writer would be the oldest undergraduate on the Boston College campus . . . Talked

on the telephone to Dr. GEORGE ALLEN of Norwood. His son, Holy Cross, is at Harvard Business. GEORGE will be at the 35th. MIKE DRUMMEY, ex-Norwood, is living in North Andover and still with Proctor and Gamble. MIKE'S son played a hot 2nd base for Harvard last year. . . No word from Dr. JOE McCARTHY of Concord, N. H. He'll be back . . . JOE (Law) McCARTHY is justly proud of the Law School prestige where he is a Professor. Joe has two sons at the Heights and one daughter through Emmanuel . . . Solid praise for JACK DOHERTY in his hard work in night calls for the Development Fund. He is a weary fellow—as is this writer . . . His daughter, Joan, is a junior in the School of Education.

As a change of pace, I met a fellow named Bid who ran a cigar store on Massachusetts Avenue when we were undergraduates. He spoke fondly of the 28'ers who helped him to buy a home in Newton. Bid was always there when we needed him.

DOC NOLAN's daughter at College of the Sacred Heart in Newton, while Bill, 16, is at St. Sebastian's . . . This writer is at the half-way point in that line. Jack, Jr. CBA '58 and Stephen A&S '62 made commissions in the Marine Corps. Bill is a freshman in CBA. With all the talk of the Jesuit Ratio Studiorum in this house it wouldn't surprise me if Paula decided she had had enough and entered Newton Theological Seminary . . . JIM DUFFY, semper fidelis, a hard worker running W. H. Brine Company as General Manager . . . ANDY MORRIS's son enters St. John's Prep next year . . . In the Centennial Academic Procession WALLACE CARROLL, member of the Board of Regents, looks the same as he did back when . . . ALAN O'FARRELL holds the highest career position as Supt. of Mails in Boston. . . . JOHN MCGILLIVARY, the quiet man, hasn't lost that pleasant personality . . . PAT TOMPKIN's son, Jim, is doing graduate work at M.I.T. . . CHARLIE KELLY's son at Fordham College of Pharmacy. His daughter is through the School of Education at the Heights. . .

Time for a commercial . . . Father Martin Harney's book, *The Jesuits in History*, is a truly exciting piece of writing. It is priced reasonably at \$5.00 and is on sale at the College book store. Fr. Harney will autograph copies. There is no reduction in price for those who flunked Fr. Harney's history course.

JOHN MARTIN, Principal of Central J. H. S. in Weymouth, well respected in that town . . . It was pleasant having dinner with MARTIN MASON, Captain, U.S. Navy, a while back . . . Mention Dr. JOE LYNCH in Foxboro and they roll out the red carpet . . . There is no truth to the rumor that a scholarship will be set up for the sons of 28'ers who patronize Frank Tallino's general store in Brookline . . . Tried to telephone JOHN MORRILL, General Manager of the Harvard Coop, but he was out lining up a putt at Oakley . . . A while back when TOM O'BRIEN was coaching football at Athol High, we startled the members of his squad when we told them TOM was the only one who ever blocked a Holy Cross punt with the back of his head . . . WALTER GAUDET is happy as Post Master at the Boston College post office . . . GENE PLOCIENNIK doesn't change, always pleasant and affable . . . And for that fine Boston College hockey team, JOHN KELLEY, our thanks . . . NORMAN STEELE's daughter is campaigning to get him back to the golf course. . . . It was good to see DR. BOB DONOVAN at the class dinner . . . BILL CASHMAN's stretch of illness apparently has ended. At the Centennial luncheon he

looked fine . . . There should be an all points bulletin on the lusty Fitzgerald clan. FRANK, JOE and WARREN haven't been seen for a while . . . MIKE GILARDE a strong believer in the JFK physical fitness plan. He scorns a ride when I see him on the street . . . A co-incidence that I should see FR. MIKE DURANT and TOM GEMELLI the same day. I still suspect that three-cornered matching game they practiced . . . FR. TOM MURPHY is at Fairfield University and still plays that nice, smooth piano . . . CHAUNCE MULLEN must be around somewhere . . . JIM CURRAN has been building those fine houses for a long time now . . . JOE BRADLEY at the class dinner, a sound sales promotion man . . . PETE CAREY in Detroit is just too far away . . . JOHN CAHILL also at the dinner still has his interest in rare books . . . DR. JOE DOYLE much in demand as a lecturer in his field of Obstetrics and Gynecology . . .

And the sad news . . . CHARLIE LEONARD was at the class dinner in March. It was a shock to hear of his death several weeks later. None of us knew that GORDON LYNCH's mother died within the year. ED BECHERER's father died a month ago. *Requiescant in pace.*

This is the end of the maiden effort. I know I've missed many names, but I'll dig them out. I need help and information. There are so many like, DR. ALEC ROSS in Minneapolis, AL RAFFERTY in Tennessee, JOHN McLAUGHLIN in Texas, JOE GREEN in Washington. So many others. Send them Postage Due. I'll pay.

At the Annual Class Memorial Mass at St. Sebastian's on May 12, 1963, a full set of ceremonial robes made by Trappist Monks in the colors and motif of St. Sebastian's was presented to the School by the Class in memory of MSGR. CHARLES R. FLANIGAN, our great class benefactor, of whom His Eminence has said: "He was one of those Priests who would do anything for others but little or nothing for himself."

The Class was honored to have its most illustrious member as the principal speaker at the Alumni Centennial Luncheon in McElroy Commons. Among those present to enjoy Bishop Wright's remarks were FR. We were a little slow getting started in commemorating our Silver Jubilee but the response and enthusiasm in recent weeks has been tremendous. Let's keep it up and end with a bang.

If you haven't paid your class dues, they will be accepted at any one of these events.

Activity amongst the bench and bar boys includes induction of JEROME P. TROY as justice of Dorchester Municipal Court and Attorney JOHN F. X. GAQUIN's statement that the conditions under which the state Alcoholic Beverages Control Commission must set prices are "theoretically absurd and practically impossible," which sentiment somehow seems to have a familiar ring. John's youngest is a boy, his fourth, born in March. There are also four Gaquin girls, the oldest of whom is attending Regis on a four year scholarship.

VINCENT P. McCAULEY's daughter, Sheila, is completing her freshman year at Merrimac College and FRANK CUDDY's son, Frank Jr., is enrolled in Engineering at Marquette University, Milwaukee. JAN KOZLOWSKI's son, Jan Andrew, a member of the National Honor Society, has a four year scholarship to Princeton if he by passes a principal's appointment to the Naval Academy and a second alternate's to West Point. The senior Koz has been elected Secretary-Treasurer of the Eastern Umpires Association. The Peace Corps Training Program at the College was directed by FR. JOHN V. DRISCOLL, S.J., Dean of the School of Social Work, who visited Peru to observe the Peace Corps in action there.

Thirty-Nine was represented at all the College's Centennial functions. ANDY O'BRIEN and NELS ERICKSON were marshalls at the Centennial Solemn Pontifical Mass and FR. JOHN DENNIS CROWLEY, S.J., of the Department of Philosophy at Holy Cross participated in the Boston College Colloquy in which scholars from all over the United States discussed the "Knowledge Explosion."

BILL HOLLAND is now associated with Lovard Corporation and handles the Dempster "Dumpster" line of rubbish removal equipment in eastern Massachusetts and Rhode Island. LEO LANDRY, Staff Engineer for Burroughs Research, Paoli, Pa., is happy to be home again, even if only on temporary assignment at Hansom AFB, Bedford, Mass. JOHN F. GALLAGHER is head of the Spectrographic Section of the FBI in Washington, D.C.

JOHN McCARTY has been appointed Attorney in Charge of the Federal Trade Commission's Boston Field Office. John and wife, Elinor, live in Marshfield with their three children.

Many members of the Class have not been mentioned in this column since graduation. Why not drop one of the above correspondents a postcard and let us know where you are and what you are doing.

In January a Governing Board was initiated for our class which is composed of about 35 members. This Board is on a pro rata basis according to each school's graduating enrollment. We believe this gives a broader coverage for all the class in planning and informing you of class events.

Our March 17th reunion was a success with approximately 150 people in attendance. In the future we hope to have two events each year; one after a football game and another in the spring, as was done this year.

## *Looking Back...*

Everyone is so busy these days coping with present problems and looking ahead to the future that there is relatively little time left to review the past. But once in a while, at least, it's a satisfying experience to scan the pages of history and evaluate the progress that has been made.

We know that the students, alumni and faculty of Boston College can reflect with pride upon the contributions that have been made to the social, educational, and economic development of the community, state and nation down through the years.

All of us at A&P extend our heartiest congratulations and best wishes to this great university on the occasion of its 100th Anniversary.
